chittagong, Bangladesh

SUMMARY

Passionate Full Stack web Developer from Bangladesh, based in the Chittagong Hill Tracts, with practical experience designing and developing modern, responsive, and scalable web applications using contemporary web technologies. Recognized for strong problem-solving abilities, attention to detail, and a commitment to writing clean, maintainable code. A fast learner who continuously explores new technologies and enjoys collaborating to build reliable, user-focused software solutions.

EXPERIENCE

Full Stack Web Development Journey | 2024 – Present

Self-Learning & Programming Hero MERN Stack Course

- Started my software development journey in **Journey 2024** by learning the fundamentals of **HTML5, CSS3, and JavaScript (ES6+)**, building a strong foundation in modern web development.
- Enrolled in the **Programming Hero Complete MERN Stack Web Development Course** in **July 2024**, where I completed **6 months** of intensive training in **MongoDB, Express.js, React.js, and Node.js.**
- Built **multiple frontend and full-stack web applications**, gaining practical experience in **REST APIs, authentication, responsive UI development, CRUD operations, and database integration**.
- Successfully completed the MERN Stack program in **January 2025**, strengthening both frontend and backend development skills.
- Continued learning independently by mastering modern technologies including **Next.js, TypeScript, Redux Toolkit, PostgreSQL, MySQL, AWS, GSAP Animation, Shadcn UI, Tailwind CSS, and Firebase**.
- Focused on writing clean, scalable, and maintainable code while improving application performance, responsive design, and user experience.
- Developed numerous real-world projects between **2025 and Present,** continuously expanding my knowledge of modern software development and industry best practices.
- Currently dedicated to continuous learning, exploring new technologies, and building production-ready applications while preparing for professional software engineering opportunities.
