Kyachingprue Marma

Full-Stack Web Developer

I am a passionate Full Stack Developer specializing in React.js, Next.js, TypeScript, Node.js, and Express. I build scalable, high-performance web applications with robust backend and optimized database management using MongoDB and PostgreSQL. I design responsive, user-centric interfaces that deliver seamless experiences across platforms. I am committed to writing clean, maintainable code and following industry best practices to deliver reliable solutions. My goal is to create innovative, large-scale applications that solve real-world problems and drive technological impact.

Address
Khagrachari, Bangladesh

Education

2024 - 2027

Bachelor of Business Studies (BBS)

Mahalchari Gov. Degree College

Expertise

- Frontend
  HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript
- Backend
  Node.js, Express.js
- Database
  MongoDB, PostgreSQL
- Deployment & Tools
  Vercel, Render, Railway
- Concepts
  RESTful APIs, CRUD Operations

Language

English - Intermediate

Bangla - Native

Experience

2023 - 2024

Frontend Development (Self-Learning Journey)

Started my programming journey with a strong focus on core web technologies, including HTML, CSS, and JavaScript. Gained solid expertise in building responsive, user-friendly interfaces, mastering DOM manipulation, and applying problem-solving and logical thinking skills through hands-on projects. Developed a strong foundation in modern web development by consistently practicing and delivering small to medium-scale projects.

2024 - 2025

MERN Stack Development – Programming Hero

Started a structured learning path on Programming Hero (June 10, 2024), overcoming challenges through dedication and hands-on practice. Gained practical experience in building full-stack applications using MongoDB, Express.js, React, and Node.js. Strengthened skills in API integration, authentication, project structuring, and real-world development workflows. Successfully completed the full MERN Stack course (January 30, 2025), acquiring hands-on experience in developing scalable web applications.

2015 - 2026

Full-Stack Development & Advanced Technologies

Currently advancing full-stack development skills with Next.js, TypeScript, and PostgreSQL by building modern, scalable projects with optimized architecture and performance. Continuously enhancing problem-solving and logical thinking through complex projects, hands-on practice, and exploring real-world applications inspired by developer communities.
