khagrachari, Bangladesh

About Me

I am a Full Stack Web Developer skilled in React.js, Next.js, TypeScript, Node.js, Express, MongoDB, Firebase, and PostgreSQL. I started my journey in 2024 and progressed from frontend to full stack development. I solve problems through debugging and research, and use modern tools when needed. I focus on clean code and building user-friendly web applications.

Skills

- HTML
- CSS
- JavaScript
- React.js
- Next.js
- TypeScript
- Node.js
- Express.js
- MongoDB
- PostgreSQL
- Firebase
- REST APIs
- CRUD Operations
- Git & GitHub

Education

Bachelor of Business Studies (BBS)

Mahalchari Government Degree College, Khagrachari, Bangladesh — 2024 – 2027

- Currently pursuing a degree under National University
- Alongside academic studies, actively developing skills in web development

Higher Secondary Certificate (HSC) – Business Studies

Mahalchari Government Degree College — 2022 – 2023

- Completed higher secondary education with a focus on business studies

Experience

Self-Taught Full Stack Web Developer

2024 – Present

- Began my web development journey in June 2024 by learning the fundamentals of HTML, CSS, and JavaScript
- Built a strong foundation in core programming concepts including problem-solving, logic building, and code structure
- Enrolled in the Programming Hero course, where I gained in-depth knowledge of MERN stack development (MongoDB, Express.js, React.js, Node.js)
- Successfully completed the course in 2025 through consistent effort, dedication, and overcoming complex challenges
- Developed multiple real-world projects such as e-commerce platforms, travel booking websites, and freelancing/job marketplace applications
- Gained hands-on experience in building responsive, user-friendly, and scalable web applications
- Implemented key features including authentication systems, RESTful APIs, CRUD operations, and secure data handling
- Continuously improved coding skills through regular practice, self-learning, and exploring modern technologies
- Expanded my expertise in 2026 by learning advanced tools and technologies such as Next.js, TypeScript, PostgreSQL, and modern development ecosystems
- Focused on writing clean, maintainable, and efficient code following best practices
- Strong debugging and problem-solving mindset; I analyze and fix errors independently by reading and understanding code deeply
- Utilize modern tools and resources like ChatGPT when necessary to enhance efficiency and learn better solutions
- Passionate about continuous learning, adapting to new technologies, and building high-quality web applications
